CHAIRMAN'S LETTER

Dear Shareholders,

Firstly, I would like to acknowledge you, the Stakeholders, who continue to place trust in Dropsuite Limited and your Board, and I hope you garner as much satisfaction from the Company's success over the past 12 months as we have.

I would like to reflect on the journey we have all experienced since we listed on the Australian Securities Exchange in December 2016, and the milestones that we have achieved up until this point.

Dropsuite was founded with a simple, yet critical mission: to help protect the digital information of small and medium-sized businesses by offering highly usable and affordable backup solutions in the cloud for this under-served sector of the world's economy.

We closely abide by the mission statement to "ensure businesses never lose data again", and we continued to fulfil our mission in 2017, a successful productive year for Dropsuite

We have experienced significant growth across our Key Performance Indicators, and we have built a highly usable cloud backup platform that is also robust and secure. The platform is becoming a leading platform adopted by IT Service Providers and then resold to small and medium businesses world-wide.

We count some of the largest IT service providers in the world as partners, while our performance across all facets of the business improved exponentially in 2017. Our revenue and the number of paid users both almost doubled, while average revenue per user (ARPU) also improved year on year. Furthermore, we are seeing encouraging traction on email backup and archiving which will contribute to expanding Dropsuite's channel presence and, as importantly, enhancing the Average Revenue Per User (ARPU) growth

But core to our business and its strength is the quality of our people, our customers, our best practice backup solution, and our annuity-based business and revenue model. It has been the backbone of the Company's rapid growth over the past 12 months, supported by a strong and experienced Board and Executive team.

Our company has high expectations for growth opportunities and we continue to invest in product innovation to stay true to our core culture of engineering the best backup solutions for our customers. There is significant opportunity at our disposal to expand Dropsuite's global footprint, and that prospect is most exciting for us.

There is significant room for further growth in current and new markets, and while Dropsuite has certainly carved out a prominent niche, I am confident that the Company will continue to play an important role in the data protection industry with its market-leading product offerings.

Lastly, I want to once again thank you for maintaining confidence in the Company and its growth strategy, as we move into another exciting period. I would also like to thank the CEO for his hard work and dedication and thank his team for building a great Company which remains a constant work-in-progress.

Sincerely,

Theo Hnarakis

Chairman

MANAGING DIRECTOR'S REPORT

Dear Shareholders,

I am pleased to be providing you with the operational overview for the 2017 annual report,

In this day and age, our world economy runs on information and knowledge, which mostly exists in digital format. At the same time, we have never been more vulnerable to cyber security threats and challenges, and 2017 has been a notable year in this regard.

Aside from the continued growth of the Dropsuite footprint across the globe, we also achieved encouraging milestones during the year:

- The number of users utilising our cloud backup service almost doubled (~**220,000**), as did revenue (~**\$2.55M**) year-on-year.
- The development of relevant product offerings especially around email and Microsoft Office 365 (O365) applications such as SharePoint that are resonating really well with IT Service Providers.
- The expansion of our partnerships with leading IT Service Providers globally.
- Successfully raised new funds and strengthened our shareholder base to support Dropsuite's growth plans for 2018 and beyond.

That said, and notwithstanding the successes in 2017, we will be mindful to proactively address any challenges that may affect our business around retaining talented staff and key partners as well as delivering on our product plans. We do this by hiring new talent, diversifying our product portfolio, and expanding our partner base globally.

Key Metrics 2017 vs 2016

A solid increase in Revenue and ARPU

Key performance indicators across the Company in the past 12 months have been encouraging, with cumulative cash receipts from revenues increasing 95% year-on-year being a standout. This revenue performance was underpinned by significant user growth (see *Figure 1*).

The Average Revenue Per User (ARPU) was also higher this calendar year, a testament to the quality of our products.

Metrics	2017	2016	Year on Year
Total Revenue (\$)	\$2.55M	\$1.31	95%
Dec. Annualized Revenue	\$3.28M	\$1.65M	99%
Total Cash Receipts	\$2.3M	\$1.18M	95%
Average Revenue per user	\$1.24	\$1.23	\$0.01
# of Partnerships	87	57	53%

Figure 1

Paid User Growth

From December 2016 to December 2017, the Company experienced a 73% increase in the number of paid users utilising Dropsuite's cloud backup service, from approximately 127,000 in December 2016 to around 220,000 in December 2017.

In the meantime, we continue building a strong funnel of new partners, especially around our email business, where the size of the addressable market is larger and the average revenue per user is considerably higher.

Additional Growth Drivers

Dropsuite prides itself on its **product**, its **people** and its **partners**, and these are the key components to our continued growth, as well as the successful completion of funding initiatives.

Product: Best backup solutions for small and medium businesses

Dropsuite has carved out an impressive niche in its business, targeting those small and medium-sized non-tech savvy businesses where a simple and intuitive user interface is key. As such, the Company has been focused relentlessly on delivering a world-class user experience – and this element has delivered as evident in the quality of existing partners

This month (March'18) we have introduced Insights and Analytics into our email and O365 backup offerings, effectively leveraging the (Big) Data collected for backup to present insightful and actionable business insights to our partners and users.

Dropsuite has continued to invest in backing up services in the Microsoft ecosystem, with the addition of two additional back-up solutions, and we will continue expanding our email and O365 offerings to appeal to our growing user-base, and

People: Committed Global Team

To echo the Chairman's comments on the Dropsuite team, securing high-quality new team members in key departments of engineering, sales and marketing has been fantastic. With the Dropsuite footprint expanding to other lucrative global markets, we are always striving to improve our management and communication system as the team expands globally.

One of the key outcomes we will strive to achieve over the next 12 months is the expansion of the new software engineering centre in Indonesia.

With a highly-experienced executive team, Dropsuite looks forward to continuing its collaborative and winning culture.

Partner: Continue winning in Web Hosting and expand into new reseller channels

The success over the past 12 months in growing our user and partner base can be attributed to the flawless execution by the business development sales and marketing team to expand and sell into managed service provider channel.

We pride ourselves on targeting the small and medium-sized business market, but marketing and selling Website Backup services to our large partners' existing users is a critical part of our ongoing growth.

Through launching new meaningful partnerships with large web hosting companies across key geographies and cross-selling email backup to our existing and new hosting partners, we will continue to experience exponential growth.

Key attributes that sets Dropsuite apart from the rest

It is also important to remind our shareholders and investors of the attributes that set our cloud backup platform apart from the competition as we continue on this journey:

Global, scalable and secure: Leveraging the speed and performance of the Public Cloud, coupled with rigorous security practices at Dropsuite and Amazon Web Services.

Modular architecture: Built-in customization allows partners to define their end-user experience with just a few clicks.

Seamless Partner Integration: Seamlessly integrates with leading IT Reseller platforms, enabling rapid rollout, recurring revenue streams and lower support costs and zero development costs.

Best in Class User Experience: We constantly hear this from our partners, our backup platform wins the day for its simple and intuitive user interface.

We believe that the demand for our backup platform will only grow as businesses expand their digital footprint and require easy-to-use, secure and affordable solutions to protect them, not only from cyber security threats but from human error.

The size of the market is massive, and we will continue to have huge headroom to grow in the future:

Microsoft Office 365 sold: **120 MILLION subscribers in 2016**

Information Archiving Market: **\$7.1B IN 2020**

Data protection and recovery solution market: **USD \$14 BILLION BY 2025**

Aided by a strong balance sheet, a growing revenue base and our expanding geographical footprint, Dropsuite will continue to strive and deliver on its clearly defined mission statement.

Lastly, I want to thank our Dropsuite team, Management and Board for their commitment in 2017, and I also want to express my gratitude to our shareholders and investors for their support over the last year.

Sincerely,

Charif Elansari

Managing Director

Directors' Report

Your directors submit the financial report of Dropsuite Limited ('Company') and its controlled entities ('Group' or 'Dropsuite') for the year ended 31 December 2017.

Directors:

The names of directors who held office during the year and up to the date of this report:

Theo Hnarakis	Non-Executive Chairman
Charif el Ansari	Managing Director
Bruce Tonkin	Non-Executive Director (appointed 22 February 2017)
Alex Bajada	Non-Executive Director (resigned 30 June 2017)

Principal Activity:

Dropsuite's engineering team has developed the backup technology on a state-of-the-art software architecture that is both modular and scalable. Dropsuite's software architecture has been built for successful horizontal scaling and has demonstrated strong ability to scale to hundreds of thousands of users worldwide.

Dropsuite delivers its back-up experience for small and medium enterprise businesses (SME's) by providing users with an easy-to-use, platform that enables them to backup their key business information.

Dropsuite's current products include:

- Dropsuite Website Backup
 - a Cloud-based website and database backup and monitoring service that allows website owners to automatically backup their website files and databases, monitor website availability and performance worldwide, and restore lost or corrupted data with a single click
- Dropsuite Email Backup and Archiving;
 - a Cloud-based email backup and archiving solution that helps SMEs and even consumers securely backup, manage, recover, comply and protect their email data. The solution simplifies provisioning and managing email backup and archiving. The user interface provides anywhere access to view, search, migrate, download and restore emails and file attachments
- Dropsuite for Office 365
 - Complete backup and archiving solution for Microsoft's fast growing O365 suite of products, including Sharepoint and One Drive.
- Dropmymobile (backup for Android mobile phones)
 - a mobile data backup app for Android. Dropmymobile provides automatic and secure backups of contacts, SMS messages, photos, videos and call logs in the Cloud. Phone data can be viewed, migrated to another device or restored back into the user's phone.

Dropsuite deploys military-grade encryption to protect user data and AES (Advanced Encryption Standard) 256-bit encryption, at rest and in transit, as well as Secure Sockets Layer endpoints.

Dropsuite's service is already deployed to users globally, in multiple languages.

Operating Results:

The financial results for the year

The financial results for the year include expenses for the build of operations infrastructure and market growth activities.

The operating loss after income tax of the consolidated group for the year ended 31 December 2017 was \$2,175,919 and the prior year loss after tax was \$7,351,326.

Review of Operations

Dropsuite aims to simplify the backup experience for SMEs by providing users with an easy-to-use, unified platform that enables them to backup their key business information.

Dropsuite's service is already deployed to users globally, in multiple languages.

Dropsuite deploys military-grade encryption to protect user data and AES (Advanced Encryption Standard) 256-bit encryption, at rest and in transit, as well as Secure Sockets Layer (SSL) endpoints.

Dropsuite's technology has all been built in-house under the supervision of its CEO, Charif Elansari, who previously held senior roles at Google and Dell, and co-led by a core team of cloud computing veterans including Ronald Hart (Chief Technology Officer) and Ridley Ruth (Chief Operating Officer).

Dropsuite's Cloud-based suite of backup solutions has been built to scale from the smallest to the world's largest Partners by leveraging the latest in Cloud technology as well as a state-of-the-art unique horizontal scaling architecture. The result is a platform that can scale on demand at a very low-cost point with the ability to bring systems online dynamically during peak load hours. Dropsuite's Cloud backup system is deployed worldwide allowing the backed up data to remain in the Partner's region of choice as well as providing the shortest network hops to reach their data resources.

Dropsuite Website Backup

Dropsuite Website Backup is a Cloud-based website (and database) backup and monitoring service that allows website owners to automatically backup their website files and databases, monitor website availability and performance worldwide, and restore lost or corrupted data with a single click.

This product's unique data granularity allows the end users to access to download/restore single files instantaneously as well as selected directories or the entire site all in a simple to use backup manager.

Features include:

- Secure self-service backup with one-click restoration / migration for databases and websites
- Restore files from any point in time (up to 30 versions)
- Track, Review and manage file revision history
- End-to-end 256 bit AES encryption
- Easy-to-use web-based interface and file browser
- Backup Data is accessible a from any device / location with an internet connection
- Automated cloud backups ideal for business continuity and disaster recovery
- Central point of management via admin panel

Dropsuite Email Backup and Archiving

Dropsuite Email Backup and Archiving is a Cloud-based email backup and archiving solution that helps SMEs and even consumers securely backup, manage, recover and protect all of their email data. This product simplifies securing and managing email continuity for businesses and even consumers. The user interface provides anywhere access to view, search, migrate, download and restore emails and file attachments. The very recent launch of Insights and Analytics uses Big Data to provide actionable insights to business owners as well as our partners

Features include:

- Automated Incremental Email Backup & Archiving
- Central point of management through an admin panel
- Download, Restore & Migrate emails with One Click
- End to end 256 bit AES encryption
- Ideal for compliance and business continuity
- Admin Panel and Multiple User Access Manager
- Viewable from any device / location
- Advance Search, eDiscovery, and Alert creations
- Unlimited storage & retention period

Dropsuite for Office 365

Dropsuite for O365 is a complete Cloud-based backup and archiving solution that especially built for Microsoft Office 365. it securely backup, manage, recover, comply and protect all of their O365 data including One Drive and Sharepoint. The product uniquely provides a single pane of glass throughout the O365 suite of products. The very recent launch of Insights and Analytics uses Big Data to provide actionable insights to business owners as well as our partners Features include:

- Automated Incremental Email Backup & Archiving
- Central point of management through an admin panel
- Download, Restore & Migrate emails with One Click
- End to end 256 bit AES encryption
- Ideal for compliance and business continuity
- Admin Panel and Multiple User Access Manager
- Viewable from any device / location
- Advance Search, eDiscovery across O365 suite of products
- Unlimited storage & retention period

Dropmymobile

Dropmymobile is a mobile data backup app for Android. Dropmymobile provides automatic and secure backups of contacts, SMS, media (pictures / videos) and call logs in the Cloud. Phone data can be viewed, migrated to another device or restored back into the user's phone.

Features include:

- Multiple devices backup
- One-click data restore
- Paranoid (highly-encrypted) mode
- End-to-end encryption

WHY IT WORKS

FULLY DEVELOPED TECHNOLOGY

Backup platform that is robust and secure, and has demonstrated strong capability to scale globally.

SMALL BUSINESS DNA

Designed for non-tech savvy businesses where a simple and intuitive user interface is key.

SEAMLESS INTEGRATION

Seamlessly integrates with leading IT Reseller platforms, enabling rapid rollout, recurring revenue streams and lower support costs.

MODULAR ARCHITECTURE

Built-in customisation allows partners to define their end-user experience with just a few clicks.

Why It Works Diagram: Dropsuite's backup products are built for SMEs and are seamlessly integrated into the IT Service Providers platforms.

HOW IT WORKS

1

USERS SET UP DROPSUITE TO BACK UP THEIR WEBSITE, EMAIL, MOBILE OR SERVER DATA

2

DATA IS STORED SECURELY IN THE CLOUD OR PARTNER LOCATION

3

INCREMENTAL BACKUPS TAKEN WITHOUT THE NEED FOR USER INTERVENTION

4

USERS ACCESS AND RESTORE THEIR DATA FROM ANY DEVICE (INCL MOBILE PHONE) ON DEMAND

DROPSUITE LIMITED

DIRECTORS' REPORT (cont.)

For the year ended 31 December 2017

Financial position

The net assets of the consolidated group have increased by \$2,319,101 from 31 December 2016 to \$6,284,881 as at 31 December 2017. This increase was largely due to the proceeds from the issue of shares.

The directors believe the consolidated entity is in a stable financial position and able to expand and grow its current operations.

			<u>20,000,000</u>

Option holders do not have any rights to participate in any issue of shares and other interests of the Company or any other entity.

There have been no options granted over unissued shares or interests of any controlled entity within the Group during or since the end of the reporting period.

For details of options issued to directors and executives as remunerations, refer to the remunerations report.

Remuneration Report (Audited)

The information provided in this remuneration report has been audited as required by section 308(3C) of the *Corporations Act 2001*.

Principles used to determine the nature and amount of remuneration

The Company's policy for determining the nature and amount of emoluments of Key Management Personnel (or "KMP") of the Group is as follows:

- The remuneration structure for executive officers, including executive directors, will emphasise payments for results through providing various reward schemes.
- The objective of the reward schemes is to both reinforce the short and long-term goals of the Group and to provide a common interest between management and shareholders.
- Establish appropriate performance hurdles in relation to variable remuneration.
- The aim of the policy is to reward employees for the success of the Group and its performance overall.

Remuneration Committee

Due to the current size of the Board and the number of staff, the full Board is responsible for determining and reviewing compensation arrangements for directors, the chief executive officer and all staff. The Board may seek independent expert advice to assess the nature and amount of remuneration of all staff including directors and the chief executive officer by reference to relevant employment market conditions with the overall objective being the retention and attraction of a high quality board, executive and company.

Remuneration structure

In accordance with best practice corporate governance, the structure of non-executive director and senior executive remuneration is separate and distinct.

Non-executive director remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Group with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Structure

The Constitution and the ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed. The board considers advice from external consultants when undertaking the annual review process.

Due to tight financial constraints, every effort has been made to reduce all fees, including director compensation.

Each director receives a fee for being a director.

DROPSUITE LIMITED

DIRECTORS' REPORT (cont.)

For the year ended 31 December 2017

Senior manager and executive director remuneration

Objective

The Company aims to reward and attract senior managers and executives with a level and mix of remuneration commensurate with their position and responsibilities within the Group.

Structure

In determining the level and make up of senior manager and executive remuneration, the Board may engage external consultants to provide independent advice. Remuneration generally consists of the following elements:

- Fixed remuneration;
- Variable remuneration; and
- Long Term Incentive.

Further details regarding remuneration of senior managers and executive directors for the 12 months ended 31 December 2017 is detailed in below.

Fixed Remuneration

Objective

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. It is reviewed annually and it involves where appropriate the access to external advice.

Variable Remuneration and long term incentive

Structure

The Company's policy for determining the nature and amount of emoluments of Board members and senior executives of the Group is as follows:

- The remuneration structure for executive officers, including executive directors, will seek to emphasise payments for results through providing various reward schemes. The objective of the reward schemes is to both reinforce the short and long term goals of the Group and to provide a common interest between management and shareholders.

No KMP received variable remuneration during the 12 months ended 31 December 2017.

Service agreements

Charif Elansari's remuneration is currently SIN\$24,000 per month (SIN\$ 288,000 per annum). The agreement can be terminated by either party by giving not less than 3 months prior written notice in advance, or in the event of termination by the Company, by payment of an amount equal to 3 months salary in lieu of such notice.

Theo Hnarakis' remuneration is \$12,500 per month, with a one month termination notice period by other party. Bruce Tonkin's remuneration is \$5,833 per month with a one month termination notice period by the other party. Zoran Grujic, appointed as Chief Financial Officer and joint company secretary on 22 February 2017 receives remuneration of \$12,000 per month with a one month termination notice period by the other party.

There are no other service agreements in place with KMP.

Voting and comments made at the Company's 2016 Annual General Meeting ("AGM")

At the 2016 AGM, the voters supported the adoption of the remuneration report for the year ended 31 December 2016. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

DROPSUITE LIMITED

DIRECTORS' REPORT (cont.)

For the year ended 31 December 2017

End of Remuneration Report (Audited)

Indemnities and insurance officers

The Company has indemnified the directors and executives of the Company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against a liability to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the Company

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

No proceedings have been brought or intervened in on behalf of the company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-Audit Services

The Company's auditor provided no non-audit services during the year.

Auditor's Declaration:

The auditor's independence declaration under s 307C of the *Corporations Act 2001* is set out on page 41 for the year ended 31 December 2017.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the *Corporations Act 2001*.

DROPSUITE LIMITED
CORPORATE GOVERNANCE

For the year ended For the year ended 31 December 2017

The Board of Directors of Dropsuite Limited (“Dropsuite” or “the Company”) is committed to conducting the Company’s business in accordance with the highest standards of corporate governance. The Board is responsible for the Company’s Corporate Governance and the governance framework, policy and procedures, and charters that underpin this commitment. The Board ensures that the Company complies with the corporate governance requirements stipulated in the Corporations Act 2001 (Cth), the ASX Listing Rules, the constitution of the Company and any other applicable laws and regulations.

The table below summarises the Company’s compliance with the ASX Corporate Governance Councils Corporate Governance Principles and Recommendations (3rd Edition), in accordance with ASX Listing Rule 4.10.3

Principles and Recommendations	Disclosure	Comply
Principle 1 – Lay solid foundations for management and oversight		
1.1 A listed entity should disclose: (a) the respective roles and responsibilities of its board and management; and (b) those matters expressly reserved to the board and those delegated to management	These matters are disclosed in the Company’s Board Charter, which is available on the Company’s website.	Complies
1.2 A listed entity should: (a) undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director; and (b) provide security holders with all material information in its possession relevant to a decision on whether to not to elect or re- elect a director	When a requirement arises for the selection, nomination and appointment of a new director, the Board forms a sub-committee that is tasked with this process, and includes undertaking appropriate checks and any potential candidates. When directors retire and nominate for re-election, the Board does not endorse a director who has not satisfactorily performed their role.	Complies Complies
1.3 A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.	The Company executes a letter of appointment with each director and services agreements with senior executives.	Complies

8.3	<p>A listed entity which has an equity-based remuneration scheme should:</p> <p>(a) have a policy on whether participants are permitted to enter into transaction (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and</p> <p>(b) disclose that policy or a summary of it.</p>	<p>The Company's Security Trading Policy obliges all directors, officers and employees of the Company to advise the Company, via the Company Secretary, or any securitisation of Company securities. A copy of the policy is available on the Company's web site.</p> <p>As at the date of this statement the Company Secretary has not been advised by an officer or employee of the Company of any securitisation of Company securities that they own.</p>	Complies
-----	---	--	----------

As the Company's activities increase in size, scope and/or nature, the Company's corporate governance principles will be reviewed by the Board and amended as appropriate.

Diversity

The Company and all its related bodies corporate are committed to workplace diversity. The Company recognises the benefits arising from employee and Board diversity, including a broader pool of high quality employees, improving employee retention, accessing different perspectives and ideas and benefitting from all available talent.

Diversity includes, but is not limited to gender, age, ethnicity and cultural background. The Diversity Policy is available on the Company's website.

As stated earlier, the Company is at a stage of its development that the application of measurable objectives in relation to gender diversity, at the various levels of the Company's business, are not considered to be appropriate nor practical.

The participation of women in the Company and consolidated entity at 31 December 2017 was as follows:

- *Women employees in the consolidated entity* 12%
- *Women in senior management positions* 0%
- *Women on the board* 0%

DROPSUITE LIMITED**Notes to the Financial Statements****NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

These consolidated financial statements and notes represent those of Dropsuite Limited (or “the Company”) and Controlled Entities (“the Consolidated group” or “Group”). Dropsuite Limited is a public listed company, incorporated and domiciled in Australia. These consolidated financial statements were authorised for issue on 29 March 2018.

The separate financial statements of the parent entity, Dropsuite Limited, have not been presented within this financial report as permitted by the *Corporations Act 2001*.

The address registered office is Suite 2, 16 Ord Street, West Perth, Western Australia 6005.

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Going concern

The financial report has been prepared on the going concern basis, which contemplated the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The directors have considered the funding and operational status of the business in arriving at their assessment of going concern and believe that the going concern basis of preparation is appropriate, based upon the following:

- Current cash and cash equivalents on hand;
- The ability of the Company to obtain funding through various sources, including debt and equity;
- The ability to further vary cash flow depending upon the achievement of certain milestones within the business plan; and
- The expected receipt of sale proceeds.

Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards and the financial report has been prepared on a historical cost basis.

The financial report has been presented in Australian Dollars.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material

DROPSUITE LIMITED

accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(b) Parent entity information

In accordance with the *Corporations Act 2001*, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 2.

(c) Principles of Consolidation

The consolidated financial statements comprise the financial statements of the parent entity and its subsidiaries ('Group') as at 31 December each year. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls and investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring assets and liabilities, equity income, expenses and cash flows relating to transactions between members of the Consolidated Entity are eliminated in full on consolidation.

DROPSUITE LIMITED**(d) Business combinations**

Business combinations are accounted for using the acquisition method. The cost of the acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non – controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non – controlling interests in the acquiree at fair value or at the proportionate shares of the acquiree identifiable net assets. Acquisition – related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed to be appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. Any contingent consideration to be transferred by the acquirer will be recognised at the fair value at the acquisition date. Contingent conditions classified as an asset or liability that is a financial instrument and within the scope of IAS 39 Financial Instruments: Recognition and Measurement, is measured at fair value with the changes in fair value recognised in the statement of profit and loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non – controlling interest) and any previous interest held over the net identifiable assets acquired and liability assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the group re- assesses whether it has correctly identified all of the assets and all of the liabilities assumed and reviews the procedure used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment loss. For the purpose of impairment testing, goodwill acquired in a business is, from the acquisition date, allocated to each of the Group's cash – generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash generating unit (CGU), and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the proportion of cash – generating units retained.

(e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest income is recognised using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

DROPSUITE LIMITED**(f) Current and non-current classification**

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

(g) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprises cash at bank and in hand and short term deposits that are readily convertible to known amounts of cash and which are subject to the insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included within interest bearing loans and borrowings in the current liabilities of the statement of financial position.

(h) Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues or incur expenses) including revenues and expenses relating to the transaction with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision makers to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. This includes start – up operations which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of directors.

(i) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of

DROPSUITE LIMITED

an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting, nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(j) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case, it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(k) Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is reclassified from equity and recognised in profit or loss as a reclassification adjustment. Impairment losses recognised in profit or loss on equity instruments classified as available-for-sale are not reversed through profit or loss.

If there is evidence of impairment for any of the Group's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in profit or loss.

DROPSUITE LIMITED**(l) Trade and other receivables**

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the consolidated entity will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

(m) Property, plant and Equipment

Plant and equipment is stated at historical cost less accumulated depreciation.

Depreciation is calculated on a straight – line basis over the estimated life of the asset which ranges between 3 and 25 years.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continual use of the asset.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying value of the items) is included in the statement of comprehensive income in the period the item is derecognised.

(n) Intangible Assets

Intangible assets acquired separately are measured at initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangible, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit and loss in the period in which the expenditure is incurred. The useful lives of the intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the

DROPSUITE LIMITED

expected pattern of consumption of economic future benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortised expense of intangible assets with finite lives is recognised in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash – generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supported. If not, the changes in the useful life from indefinite to finite are made on a prospective basis.

Gains or losses arising from derecognition of an indefinite asset are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in the statement of profit and loss when the asset is derecognised.

(o) Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- Its intention to complete and its ability and intention to use or sell the asset;
- How the asset will generate future economic benefits;
- The availability of resources to complete the asset; and
- The ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is completed and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation is recorded in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

Amortisation

A summary of the current amortisation rates applied to the Group's intangible assets are as follows

	Development costs
Useful life	Finite (5 years)
Amortisation method	Amortised on a straight – line basis over the period of expected future sales from the related project
Internally generated or acquired	Internally generated

DROPSUITE LIMITED**(p) Investments and other financial assets**

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets, principally equity securities, which are either designated as available-for-sale or not classified as any other category. After initial recognition, fair value movements are recognised in other comprehensive income through the available-for-sale reserve in equity. Cumulative gain or loss previously reported in the available-for-sale reserve is recognised in profit or loss when the asset is derecognised or impaired.

Impairment of financial assets

The consolidated entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows. The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Available-for-sale financial assets are considered impaired when there has been a significant or prolonged decline in value below initial cost. Subsequent increments in value are recognised in other comprehensive income through the available-for-sale reserve.

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which were unpaid. The amounts are unsecured.

DROPSUITE LIMITED**(r) Share based payments**

From time to time, the Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. For options, the fair value is determined by using the Binomial method or Black-Scholes model.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The income statement charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period. No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see note 5).

(s) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Earnings per share*(i) Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

DROPSUITE LIMITED*(ii) Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary share and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(u) Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

(v) New Accounting Standards for Application in Future Periods

Adoption of new and revised Accounting Standards

The AASB has issued new standards, amendments and interpretations to existing standards which have been published but are not yet effective, and have not yet been adopted early by the Company. The new standards, amendments and interpretations that may be relevant to the Company's financial statements are provided below.

Standard/Interpretation	Effective for annual reporting periods beginning on or after
<p><i>AASB 9 Financial Instruments</i> AASB 9 introduces new requirements for the classification and measurement of financial assets and liabilities. These requirements improve and simplify the approach for classification and measurement of financial assets</p>	1 January 2018
<p><i>AASB 15 Revenue from Contracts with Customers</i> AASB 15</p> <ul style="list-style-type: none"> - establishes a new revenue recognition model - changes the basis for deciding whether revenue is to be recognised over time or at a point in time - provides new and more detailed guidance on specific topics - expands and improves disclosures about revenue 	1 January 2018
<p><i>AASB 16 Leases</i></p> <ul style="list-style-type: none"> - Recognition of a right-of-use asset and liability for all leases - Depreciation of right-of-use assets in line with AASB 116 - Inclusion of variable lease payments that depend on an index or a rate in the initial measurement of the lease liability - Inclusion of additional disclosure requirements 	1 January 2019

DROPSUITE LIMITED

The Group has yet to determine the impact, material or otherwise, of the new and revised standards and interpretations issued by the AASB that are relevant to its operations.

(w) Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Capitalised development costs

The Groups processes for calculating the amount of internally developed software costs to be capitalised is judgemental and involves estimating the time that employees spend developing the products.

Impairment of capitalised development costs

The Group assesses impairment of capitalised development costs for assets available for use at each reporting date by evaluating conditions specific to the Group and to the particular assets that may lead to impairment. If an impairment trigger exists, the recoverable amount of the assets are determined. For capitalised development costs relating to assets not yet available for use, the recoverable amounts are determined annually. The determination of recoverable amount involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Amortisation of capitalised development costs

The useful life used to amortise capitalised development costs is estimated based on an anticipation of future events which may impact their life. The useful life represents managements view of the expected term over which the Group will receive benefits from the development and is regularly reviewed for appropriateness.

Taxation

Balances and notes related to taxation are based on the best estimates of directors, pending further assessment in the next financial year.

(x) Employee Benefits**Short-term employee benefits**

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

DROPSUITE LIMITED

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position under trade and other payables.

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions. No long term employee benefits accounted for during this year.

Defined contribution superannuation benefits

All employees of the Group other than those who receive defined benefit entitlements receive defined contribution superannuation entitlements, for which the Group pays the fixed superannuation guarantee contribution (currently 9.5% of the employee's average ordinary salary) to the employee's superannuation fund of choice. All contributions in respect of employees' defined contribution entitlements are recognised as an expense when they become payable. The Group's obligation with respect to employees' defined contribution entitlements is limited to its obligation for any unpaid superannuation guarantee contributions at the end of the reporting period. All obligations for unpaid superannuation guarantee contributions are measured at the (undiscounted) amounts expected to be paid when the obligation is settled and are presented as current liabilities in the Group's statement of financial position.

Termination benefits

When applicable, the Group recognises a liability and expense for termination benefits at the earlier of:

- (i) the date when the Group can no longer withdraw the offer for termination benefits;
and
- (ii) when the Group recognises costs for restructuring pursuant to AASB 137: Provisions, Contingent Liabilities and Contingent Assets and the costs include termination benefits.

In either case, unless the number of employees affected is known, the obligation for termination benefits is measured on the basis of the number of employees expected to be affected.

DROPSUITE LIMITED

Termination benefits that are expected to be settled wholly before 12 months after the annual reporting period in which the benefits are recognised are measured at the (undiscounted) amounts expected to be paid. All other termination benefits are accounted for on the same basis as other long-term employee benefits.

(y) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(z) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

For personal use only

DROPSUITE LIMITED**NOTE 2: PARENT ENTITY INFORMATION**

	2017	2016
Information relating to Dropsuite Limited (the legal parent entity):	\$	\$
Current assets	4,543,401	5,090,845
Non-current assets	4,049,749	1,667,802
Total assets	8,593,150	6,758,648

Loss of the parent entity	989,311	1,498,232
Total comprehensive loss of the parent entity	989,311	1,498,232

The parent company has not entered into any guarantees, has no significant contingent liabilities, or contractual commitments for the acquisition of property, plant or equipment as at 31 December 2017.

NOTE 3: SEGMENT REPORTING

Based on the information used for internal reporting purposes by the chief operating decision maker (being the Board), the Group operated in one reportable segment during the year ended 31 December 2017, being the provision of backup services.

The reportable segment financial information is therefore the same as the consolidated statement of financial position and the consolidated statement of profit or loss and other comprehensive income.

DROPSUITE LIMITED**NOTE 4: REVENUE AND EXPENSES**

4(a) Revenue from continuing operations	CONSOLIDATED	
	2017	2016
	\$	\$
Sales income	2,555,159	1,316,384

Insurance expense	15,918	40,922
Total other expenses	513,195	453,683

- (i) Sales consulting and contractor fees have been reclassified to wages, salaries and superannuation in 2017 financial year in line with future reporting.

DROPSUITE LIMITED**NOTE 5: LOSS PER SHARE**

Basic loss per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

Diluted loss per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The following reflects the net loss and number of shares used in the basic and diluted loss per share computations:

	CONSOLIDATED	
	2017	2016
	\$	\$
Net loss after income tax benefit attributable to members	(2,175,919)	(7,351,326)
Weighted average number of ordinary shares outstanding during the year used in calculation of basic EPS and diluted EPS (i)	409,619,871	32,170,925
Earnings per share (cents)	(0.53)	(22.85)

Notes

As at 31 December 2017 there were 20,000,000 options on issue. These options have not been included in the above calculation of diluted loss per share as they are anti-dilutive.

There have been no conversions to, calls of, or subscriptions for ordinary shares or issues of potential ordinary shares since the reporting date and before the completion of this financial report.

NOTE 6: CASH AND CASH EQUIVALENTS

- **Reconciliation of cash**

Cash at the end of the financial year as shown in the statement of cash flows is reconciled to the related items in the statement of financial position as follows:

	CONSOLIDATED	
	2017	2016
	\$	\$
Cash at bank	4,962,123	5,338,507

Cash at bank earns interest at floating rates based on daily bank deposit rates. Cash deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates.

For personal use only

DROPSUITE LIMITED

- (i) Issued on 20 December 2016 to advisors in lieu of corporate advice and lead manager role in relation to the capital raising under the Prospectus dated 6 September 2016.

(f) Capital Risk Management

The consolidated entity's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns to shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may issue new shares, pay dividends or return capital to shareholders.

The consolidated entity monitors capital with reference to the net debt position. The consolidated entity's current policy is to ensure that cash and cash equivalents exceeds debt at all times.

Income tax attributable to operation loss	-	-

Estimated unused tax losses have not been recognised as a deferred tax asset as the future.

Recovery of these losses is subject to the Group satisfying the requirements imposed by the relevant regulatory authorities in each of the jurisdictions in which the Group operates. Due to the nature of the

DROPSUITE LIMITED

acquisition in December 2016 it is doubtful as to whether a majority of the tax losses accumulated by entities in the Group will be able to be carried forward for recovery in the future. The benefit of deferred tax assets not brought to account will only be brought to account if:

- (i) The Company derives future assessable income of a nature and of an amount sufficient to enable the benefit from the losses and deductions to be realised;
- (ii) The Company continues to comply with the conditions for deductibility imposed by the law; and
- (iii) No changes in tax legislation adversely affect the Company in realising the benefit from the deductions for the losses.

NOTE 15: RELATED PARTY DISCLOSURE**Particulars in relation to controlled entities of the legal parent entity, Dropsuite Limited**

DROPSUITE LIMITED**Granted and exercisable option holdings of directors and executives**

During the reporting period, no options were granted to a director or executive as remuneration, and no options were exercised by a director or executive from options previously granted as remuneration.

NOTE 17: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The group's principal financial instruments comprise cash, short-term deposits and receivables.

The main purpose of these financial instruments is to finance the Group's operations. The Group has various other financial liabilities such as trade payables, which arise directly from its operations. The main market risks arising from the Group's financial instruments are interest rate risk, foreign exchange risk, and liquidity risk.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 1 to the financial statements.

Risk management

The Group's exposure to market risk, credit risk, liquidity risk and foreign currency risk and policies in regard to these risks are outlined below:

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from the financial assets of the Group, which comprise cash and cash equivalents, and receivables. The maximum exposure to credit risk at the reporting to recognised financial assets is the carrying amount of those assets, net of any provisions for doubtful debts, as disclosed in the statement of financial position and notes to the financial report.

Receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, without incurring unnecessary losses or risking damage to the Group's reputation. The Group's objective is to maintain adequate resources by continuously monitoring forecast and actual cash flows and maturity profiles of assets and liabilities.

DROPSUITE LIMITED**Interest rate risk**

The Group does not have significant borrowings and therefore exposure to interest rate risk is minimal. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's cash balances with floating interest rates.

The Group's exposure to interest rate risks and the effective interest rates of financial assets and financial liabilities at the reporting date are as follows;

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Financial Instrument	Fixed Interest Rate		Floating Interest Rate		Non-Interest Bearing		Total	
	2017	2016	2017	2016	2017	2016	2017	2016
	\$	\$	\$	\$	\$	\$	\$	\$
(i) Financial assets								
Cash	-	-	-	-	4,962,123	5,338,507	4,962,123	5,338,507
Receivables	-	-	-	-	471,018	322,407	471,018	322,407
Total financial assets	-	-	-	-	5,433,141	5,660,914	5,433,141	5,660,914
Weighted average interest rate	-	-	-	-	-	-	-	-
(ii) Financial liabilities								
Payables	-	-	-	-	561,180	2,611,824	561,180	2,611,824
Total financial liabilities	-	-	-	-	561,180	2,611,824	561,180	2,611,824

The Company has performed sensitivity analysis relating to its exposure to interest rate risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

Interest Rate Sensitivity Analysis

For the year to 31 December 2017, the effect on profit or loss as a result of changes in the interest rate, with all other variables remaining constant would be not be material.

There is no significant impact of interest rate risk as cash is the only asset with interest rate exposure.

(a) Net fair values

The carrying amount approximates fair value for all financial assets and liabilities.

- Foreign currency risk**

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency.

DROPSUITE LIMITED

The functional currency of Dropmysite Pte Ltd is Singaporean dollars.

The cash balances are in Australian dollars.

NOTE 18: AUDITORS' REMUNERATION

	CONSOLIDATED	
	2017	2016
	\$	\$
Audits or review of the financial report of the entity and any other entity in the consolidated group		
- Greenwich and Co Audit Pty Ltd	35,987	32,000
- Kaiden Group	12,659	12,400
	<u>48,646</u>	<u>44,400</u>

NOTE 19: COMMITMENTS AND CONTINGENCIES

- (i) Operating lease commitments

The Group had no future non-cancellable operating lease liabilities at 31 December 2017 (2016: nil).

The Group had no contingent liabilities as at 31 December 2017.

There is a legal action from a contractor against Dropsuite Ltd and GCP Capital Pty Ltd as mentioned in the prospectus dated 6 September 2016.

GCP Capital Pty Ltd has indemnified Dropsuite Ltd for any liability and cost associated with the dispute.

NOTE 20: EVENTS AFTER THE REPORTING DATE

There has been no matters or circumstance that has arisen since 31 December 2017 which has significantly affected, or may significantly effect, the operations of Dropsuite Ltd and its controlled entities, the results of the operations or the state of affairs of Dropsuite Ltd and its controlled entities in the subsequent financial year.

For personal use only

DROPSUITE LIMITED**Directors' Declaration**

In accordance with a resolution of the directors of Dropsuite Limited, I state that:

In the opinion of the directors:

- (a) the financial statements and notes of the consolidated entity are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and of its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.
- (c) Note 1(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the *Corporations Act 2001*.

On behalf of the directors

Theo Hnarakis
Director
29 March 2018

Independent Audit Report to the members of Dropsuite Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Dropsuite Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 31 December 2017 and of its financial performance for the year ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be a key audit matters to be communicated in our report.

Capitalised software development costs

Refer to Note 8, Intangible Assets and accounting policy Notes 1(o) and 1(w)

Key Audit Matter	How our audit addressed the matter
<p>The Group capitalises costs for internally developed software and then amortises the software over its estimated useful life.</p> <p>This is a key audit matter due to the significance of the asset balance to the Group's consolidated statement of financial position and due to judgement involved in:</p> <ul style="list-style-type: none">• The decision to capitalise or expense costs• The Group's process for calculating the amount of internally developed software costs, including estimating the amount of time staff spent developing software; and• The Group's assessment of the economic useful life of the Software	<p>Our audit work included, but was not restricted to, the following:</p> <ul style="list-style-type: none">• Assessing the nature of projects deemed by management to be capital in nature and evaluating these against the requirements of AASB 138 <i>Intangible Assets</i>;• Matching payroll information to the amounts capitalised by management;• Reviewing job descriptions for staff that had time capitalised to assess whether they were appropriately included in the cost of internally developed software;• Reviewing and challenging management's assumptions and analysing their assessment as to whether impairment indicators exist in relation to the capitalised software costs; and• Assessing the amortisation period established and comparing to revenue forecast prepared by management and benchmarking against similar companies in the industry

Other Information

The directors are responsible for the other information. The other information obtained at the date of this auditor's report is included in the annual report, (but does not include the financial report and our auditor's report thereon).

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 21 to 25 of the directors' report for the period ended 31 December 2017. The directors of the Dropsuite Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit in accordance with Australian Auditing Standards

Opinion

In our opinion, the Remuneration Report of Dropsuite Limited for the period ended 31 December 2017 complies with section 300A of the *Corporations Act 2001*.
